

The teacher comes in and gives the students the locks and paper with code. The students [opens] the paper.

The first the code on the paper is 100100.

I turn the lock to right until 30 ---

I turn the lock to right until 36

I turn the lock to right until 38

What are these numbers!

The second code on the paper is written in Chinese. 二 + 四

I can't read Chinese!

I turn the lock left to 6

I turn the lock right 14

I turn the lock left to 24

The third code is a kind of combination of dots and lines. It looks like its Morse code. ●●●-- ●●●--

I turn the lock right to 11

I turn the lock right to 22

I turn the lock right to 33

I can't read Morse code

You win
